

For more than 25 years, Adrien Provost and Michel Provost have collected and compiled with the greatest accuracy possible quite many information about the Prevost and Provost. It is with great pride that the Association announces the launching of the new *Dictionnaire généalogique des Prévost-Provost* (the Genealogical Dictionary of the Prévost-Provost), a 600-pages work of reference, including more than 27 500 marriages. This hard-cover dictionary is easily understandable for English-speaking people and includes a complete index and a CDROM listing said marriages and the descendants of at least six ancestors.

Dictionnaire généalogique des Prévost-Provost

Pursuant to dictionary's publication, the Association and the authors, Michel and Adrien Provost, are proud to present the descendant's dictionary of six of the ancestors. For a majority of families, you will find the children and information we get about the marriage, their birthdates or their death. For the women, Prévost or Provost, if they are married, you will find her children. A first name's index is inserted to help the search.
